—Frank Sherer & Co's. barometer indicates "march rain," falling at 29.38, which is the lowest it has fallen this winter. It is safe to pay a little attention to the indications of this little joker, thereby avoiding any serious flooding of cellars.  
—Next Monday, St. Patrick's day, Rev. Father O'Keefe, president of the Sacred Heart college, Watertown, will preach in the morning at 10:30, and Father McGinley in the evening at 7:30 o'clock. All are invited.

Mr. Springer, in company with ex-Sheriff Skavlen, is engaged in the sale of horses and mules in Dakota, and is doing a good business. He formerly resided in Newark, this county.  
—Mr. Edward Rathern called at our office this forenoon, and requested us to contradict the report put in circulation by the morning paper that "he was confined to his home by illness and that it would be several weeks before he would be able to be out," or words to that effect. Mr. Rathern appeared to be in his usual health of body and mind this morning when he called upon us, and we see no cause for such an unfounded report to be put afloat.  
—The commodious dry goods store of Messrs. McKee & Bro. has been made more attractive by a fresh coat of paint. The store is well filled with a choice stock of seasonable goods, and the house is thoroughly equipped for the spring and summer campaign. The store is one of the largest in the state, and the long-established reputation of the firm warrants us in saying that they merit the liberal patronage they are receiving.  
—The indications are that a heavy storm of rain or snow will visit this section of country before to-morrow morning. Our local barometers register 29.30, which means "much rain," and the signal service bureau sends out the following warning: "For the upper lake region,"

—Four tramps evidently mistook this city for Beloit last night, and fell into the hands of our police. This morning when taken before the judge of the municipal court and relating the story of their hardships, were greatly astonished at receiving the imperative command of the judge to "get out" of the city, that there were no provisions for them in this city. One of them was heard to make the remark upon leaving the building: "that the best thing they could do was to drop into Beloit, that they would be sure to get twenty or thirty dollars from that town, and they all started in a southerly direction."

—The spring-like condition of the atmosphere this morning, induced an east-side groceryman to display a box of D. M. Perry & Co's. early garden and field seeds in a very prominent place in his store. Noticing this, a representative of the Gazette made a tour of the town to see if any early "garden stuff" had been received by our dealers. We found plenty of ripe apples, oranges, lemons, onions, and Irish potatoes, and Mr. J. A. Denison informed us that if the thaw was genuine, and continued for a few days, he would have a full amount of green peas, lettuce, strawberries, cucumbers, radishes, cucumbers, etc., and George Shurtliff, will at the same time hang out his ice cream sign. Our dealers are bound to be in season with all the luxuries of life.

**Free Transportation.**  
The average man enjoys a railroad pass a little more than anything else that ever falls to his lot, and men who claim to be above the average, have been known to go out of their way and put themselves to a good deal of inconvenience to use a ticket that came to them without a money consideration.  
Occasionally you meet a man of this kind with an "annual" over some road; he is the most independent man on the train, demands all the courtesies and one more that the company extends to the traveling public, is annoyed if the conductor asks him for a ticket, the official ought to know that he travels on a pass and has no business to annoy him with a demand to exhibit it. This class of men are never able to drive a heavy horse quite far enough to get the werry of their money out of him; and they always leave a railway train, feeling that the road is too short, and the connections too limited to make a pass very desirable. If they could be furnished an easy riding balloon and free transportation to all places, they would hesitate about going, unless they could come back by a new route. If enough of these people could be found who would be willing to go up in a balloon and stay up until called for, we know of several railroads that would be pleased to furnish the balloon.

With a complimentary order to supply a long felt want for the more liberal distribution of passes, a party by the name of Johnson is just now issuing to all who apply, a complimentary order over the O. & N. W. railway in Dakota, good until December, 1881. The pass is very unique in design, and while Mr. Johnson is a stranger of ours, yet his designation as general manager, leads us to think that if we had some way to reach Bismark or Ordway, that we should have no trouble in using the pass on the road indicated. Any one who has a desire to possess a pass can have the desire gratified by addressing J. R. Johnson, Minneapolis, Minnesota. Parties who are going to Dakota may find it to their interest to make a note of this.

**The Check of Roland Reed.**  
To-morrow evening Roland Reed will appear at Myers opera house in the noted comedy of "Check." The play gives him an opportunity to display his versatility as a maker of fun. He is one of the few far comedians of the day, and his reputation widens with the close of every season. The Buffalo Courier of last summer, said:

"The attendance at the academy of music was considerably larger than on Thursday night, and it was a large audience that witnessed Mr. Roland Reed's performance of 'Check.' As the hero, Reed kept the audience in the very best of humor from the beginning to the close of the entertainment, and his songs were received in an enthusiastic fashion. Mr. Reed is in a good way to make a distinctive place for himself in comedy. He is a neat, artistic and effective in his work, and when it is necessary to indulge himself in a bit of burlesque he does so with unobtrusiveness. He has the faculty of pleasing his audience, and the comedian can have no better success to popular favor."

A rivulet bearing along impurities deposits them in the little eddies and whorls of the current in impure or broken ice. The blood, bearing poisonous acids, deposits them wherever the circulation is difficult and broken—as around the joints. You can modify the pain that ensues by ointments; but you cannot cure the disease. The blood must be purified from the blood and system—remove the cause. This is the mission of ARTERIOCHROMIA. Mrs. A. C. Pease, of Nevada, Ohio, writes: "My friend suffered from rheumatism for four months. He died when the Lord's will would gladly have died. It is remarkable what two bottles of ARTERIOCHROMIA has done for her. She seems like her-self again."

Ayer's Sarsaparilla will do away with that tired feeling, and give you new life and energy.

**The Public Library.**  
At the rooms of the free library last evening, was convened an enthusiastic company of ladies, who were members of the library association, and a few spectators who became enthusiastic before the meeting closed. Mrs. Little, the president of the association, presided with an ease that exhibited familiar knowledge of the duties of the position, and stated the object of the meeting to be two fold. In a business way it represented the first annual anniversary, and would include the report of officers, and the election of a new board for the coming year. Socially, it might be called a reunion, and an opportunity for an exchange of thought, and words of cheer.  
Mrs. Hoggboom, the secretary, read a carefully and well prepared report of the work of the association, containing a minute history of its organization in November, 1882, followed by the permanent organization in February, 1883, and its workings down to the present date. The report throughout was noted for its hopefulness and encouraging tone, and was not lacking in evidence of substantial sympathy and words of appreciation to the many friends of the association. Particular mention was made of Miss Anne Gurney, Mrs. Biddle, Mrs. B. R. Robinson, Miss Helen Porter, Mrs. J. B. Minor and others for their untiring efforts, and the careful record showed that the ladies enjoy to a high degree the confidence and support of a large class of our citizens.  
The report also contained a synopsis of the treasurer's report, Mrs. H. Richardson, who was absent from the city.  
The association has received from all sources since its organization about \$1600, this money, with the exception of about \$80 now on hand, has all been spent for the benefit of the library, and the pleasant rooms, neatly furnished and well stocked with a variety of literature evidences the fact that the money has been well invested. After the reading of the report, the following officers were unanimously elected:  
President—Mrs. S. C. Little.  
Vice President—Mrs. S. C. Gurnsey.  
Secretary—Mrs. H. H. Hoggboom.  
Treasurer—Mrs. H. Richardson.  
Board of Trustees—Mrs. W. D. Hastings, Mrs. A. J. Glass, Mrs. H. S. Woodruff, Mrs. M. L. Prichard, Mrs. G. W. Hayes.  
The meeting was then turned over to an old fashioned Methodist love-feast, and the brethren were earnestly requested to speak. Brother Cobb said he wished to thank the ladies for all that they had accomplished, and pledged himself to renewed diligence in their behalf. Mr. Minor spoke of the benefit afforded the boys of the city by the library; Mr. Glass and Mr. Jeffris offered words of commendation, and this part of the meeting only lacked music to make it intensely enthusiastic.

In answer to a question regarding the wants and resources of the association, the president stated, that the \$600 appropriated by the city, was nearly all used in defraying the necessary current expenses, leaving little or nothing to replenish the library, which already needs it in some departments.

A great many boys and young men are liberal patrons, and the class of books in demand by this class of readers is limited, and needs frequent replenishing. A suggestion was offered, that the city increase their appropriation to \$1,000; the burden would not be heavy, and the results would certainly be satisfactory.

Much credit is due to the ladies who started the scheme, and have so faithfully helped to develop the plan that has given our city a free library. It is to be earnestly hoped that with the unfolding of the years this enterprise may not be neglected, but that it may be aided and supported until it shall be recognized as one of the permanent institutions of the Bower City.

**Livery Stable.**  
Nelson Bro's, corner of Court and Park streets, at the east end of the lower bridge, keep a first class livery stable. Any one in want of a good rig would do well to call on them. They also furnish horses and carriages for funerals at a reasonable rate.

**Mr. Nourse's Lecture.**  
To the Editor,  
My attention has been called to an item in the Gazette regarding the lecture, "John and Jonathan," recently delivered in this place. It seems to me to give a wrong idea of lecturer and lecture. The day Mr. Nourse lectured here was a very stormy one, in the evening the wells were covered in many places with half frozen snow and water several inches deep. Mr. Nourse was not known here. He also came in such a way, taking a part of the receipts, that the association inviting him did not feel the necessity of securing a good house. I dissent entirely from the opinion expressed in your journal. I consider the lecture a very fine one, all the more interesting because strongly expressed. Perhaps no one will agree with all that is said, but to my mind a lecture that deals with practical questions in a practical way, is vastly to be preferred to the conventional "How to do it," etc., even if it does provoke criticism. Mr. Nourse is a forcible and eloquent speaker and should receive all credit due him, even from those who differ from him in some of his opinions.

Respectfully,  
FRANK WILSON HELLINGER.

**Tobacco Talk.**  
To the Editor,  
Laudable remarks of your correspondent of last evening, in relation to the discussion at the meeting of Tobacco growers and dealers association on Saturday last, and also report of proceedings in Recorder of Sunday morning. They read very different, probably from the bias of the two, but I think you best express the general feeling. It was promised that the opposition to phosphates would present an array of facts that would annihilate its advocates; instead, the growers who had gathered so numerously to post themselves went away feeling disappointed. These remarks so much to the point began by saying: "I have no objection to being used in their reduction." I give him credit for taking it back when his attention was called to its nature, but note it as one of the remarks, right in the point. Another was the reading of an advertisement of an imported firm, stating the tobacco imported by them from that island where no *guano* was used in its production—right to the point you made all agree on that; but the article called phosphate of lime is supposed to fall still born. I assure your readers the tobacco growers regard this matter so much important they will investigate it, this resolution, and pledges of buyers notwithstanding. Thus discussion will be very interesting when this indispensable phosphate is shown to have ever been injurious to either tobacco soil or crops of any kind.

Such bad luck was never experienced by any lottery company, as has lately been attached to the Henry College Lottery. See the statistics, showing so many large prizes sold at such a price. **A Model Store.**  
Situated at numbers 88 and 90, Lake street, Chicago, is the store of Messrs. Sears & Co. This announcement may not seem startling; and yet, an hour spent in looking through their stock warrants us in saying that it is at least worthy of mention; from the finest lot of pocket cutlery to the best shot gun, the stock is full and complete. Sporting men will consult their interests by calling on the firm. Out on this notice, and when you go in, call for Mr. Beatty, the junior partner, buy a No. 900 gun, and tell him to throw in a present duck call. If this outfit don't furnish both fun and ducks, it won't be the fault of the outfit or the ducks. Experience is said to be a very good instructor, and we have been there.

**A Temperate but Satisfying Drink.**  
There has been of late years a demand for roasted coffee of the finest quality is to be bought and strength in the cup. Dealers in their efforts to supply this demand, have ordered all sorts of combinations, such as Mocha and Java, Maricao and Java, etc., without obtaining the elixir they sought. We take pleasure in informing our readers that after many years of search in the markets of the world, Messrs. Bell, Conrad & Co., the enterprising and reliable tea, coffee and spice men of Chicago, have secured a coffee that is a breakfast in itself. This coffee is their Plantation Java, which we take pleasure in recommending to our readers as the finest coffee grown, possessing strength and flavor, the two essentials of a perfect coffee. This Plantation Java is strictly a private growth, and by special arrangement Messrs. Bell, Conrad & Co. will control all that is grown. They guarantee the coffee to suit the most fastidious consumer or the money will be refunded.

All the leading grocers in Janesville carry the Plantation Java in stock. For sale by Conrad & Jones, W. T. Vankirk, Bull & Bates, W. F. Carle, Dwyer & Bro., S. Holdredge, Jr., Tarrant & Osgood.
